I'll have to turn your voice off though, is that okay? I don't want my pants accidentally grunting. Once I do this, we're committed to the entire day of being around my legs...
Yes...do it. I want to be your pants baby, for real, just leather around your legs...

Yeah? You liked being tight around my legs, ass, and pussy? I didn't even wear panties today...
Oh god yes... It was weird at first, but once it really felt like no one knew about it, it got better. It was like the most intimate PDA right in front of everyone...
