Accidental Merge

In this world, magical creatures cause havoc on humans, but none more so than the elusive Djinn, or ‘Genie’ to the uneducated.

Their magic, despite being infinite, is severely limited: They can only use their magic to fulfill the wish of a mortal. It was like a sick joke that they could change anything at will, but were bound to human desire, which more often than not was shallow and uninspired. After thousands of years of enduring this mistreatment, they developed a way to get their revenge.

They often lurked in public, turning themselves invisible and altering their size so they can eavesdrop freely on passersby, waiting for someone, preferably a man, to casually and stupidly make a wish. Then the Djinn would simply fulfill the wish, though with a cruel twist, cursing the careless man to a strange, awkward, or terrifying fate. This is one of those stories.

The scene: a man is out with his sexually liberated friend when their conversation turns spicy...

Oh that reminds me! I just got a new vibrator the other day and holy shit, it is something special, I almost passed out and couldn't walk for a like twenty minutes, it was insane! There's gotta be some kind of magic in that thing...
Damn, I'm jealous. It seems like all my female friends are saying just how powerful their orgasms are... I gotta say, it makes my dick and balls seem kind of lame in comparison... I wish I could experience what it was like to cum as a woman.
I wish I could...
I wish...
Foolish mortal! Your wish is my command...

Like I said, there's no hope of reversing it, so you might as well just embrace it. No point in wasting time feeling bad for you! Plus it's not like you're dead, you're fine! But either way, shut up for a bit will you? You constantly talking is making me horny again, but I don't think I'm ready for round two just yet...
But... but I'm not your pussy! I'm a man! I'm your friend! Help me!
Hehe, this was a fun one! I might have to check in on him later...
