
WHAT THE FUCK!? Where am I? Wait... this looks like the campsite of World of Magic Craft... Did I get pulled into the game! That can't be possible, what is this some Star Travel bullshit?
Yup! Since you spend more time in that game than you spend with me, I figured I would try out that new Transformation website! Now you'll be forced to spend time with me as *I* play the game with YOU as my avatar!

What the fuck is wrong with you!? You're not getting attention so YOU TRAP ME IN A COMPUTER GAME!? How is THAT an appropriate response!

I just wanted to see what the buzz about this game was! Since it's clearly more interesting than me, I figured I should check it out! I hear there's a ton of customization...

What’s this... Circus Clothing... HAHA! Aw, you look so cute! Red and green really are your colors!
Oh what the hell are you doing? Is this the clothing from the circus update? I don’t know why they even have this in the game, no one wears it! This is so humiliating... Can you just get me out of here? We can go on that date you keep wanting to go on.

You've made your point... Let's just get this over with, shall we? This isn't funny you know...
But we're only getting started! I bet there is way more that I can do with your appearance here, let me look...

What did you do? What is up with this crazy mustache...? Purple! Why did you make my mustache purple!?
Hahah! Perfect! I think I was wrong, I think purple might be your color! And would you consider growing your hair out like that in real life? You look good with a pony tail!

Ha, ha. Got me in purple underwear too huh? Just get me out of here...
Oh I can take your clothes off? Wow this game really is something. I guess this is why you like it so much, huh? It lets you finally have a six-pack? You know if you came to Pilates with me like I keep asking, you could look like this for real...

Oh you can make your avatar NAKED!? Haha, that’s awesome! So you’re just running around with your widdle peepee out? I guess it’s pretty cold in this game, huh?
Give me my clothes back! And you know I’m bigger than this in real life, this is NOT what I look like...

Whoa, it feels weird not being in control of myself. What the hell is this? Jazz hands, really? God this is humiliating...
It’s kind of hard to tell with you covering up like that... There! Now that I control you pose I can actually see! He he, you’re so cute!

Race? What is this option...? Haha, look at the little gnome! What's up, short king! Wow, your dick is the same size... Those poor gnome girls...
Come on, this is too far... You know this game is online right? Other people, even my friends, could come into the server and see this... I know they'll think I'm playing, but they'll think I'm staring at a naked gnome!

Oh, a demon-lad. You look so strapping and handsome! That's quite a chin...
Well this is a bit better, I guess, but I'm still naked and STILL TRAPPED IN MY FUCKING GAME! Get. Me. OUT!

Whoa this feels weird... WHERE'S MY COCK! This isn't funny, change me back! Goddamn, this is so fucked up.
Not yet, I'm having fun! Oh, I can make you a woman? What does an orc look like... Oh, you're even more ripped! Though you could use a razor, lady! And do you dye your hair? The carpet does NOT match the drapes! Haha!

Yeah, let's try something a little more traditionally attractive... an elf, yeah, that's probably better... Oh so they DO have razors in this world, huh? Haha!
Oh... oh wow... um... this is still fucked, but honestly, this is kind of hot... Look at those tits... I haven't made a character naked since day one, years ago...

Hmm... what else can I do...? Oh what's this... NPCs huh? Let's just see... who is Roofus...? Oh, that's Roofus.
Wait, Roofus? What are you doing... Holy shit, where did he come from! [Shiver] I don't like how he's looking at me...

Oh I can give him commands... “Intimacy?” What the hell is that all about... oh... well that’s interesting...
Wait, intimacy? No... NO! You... you wouldn’t... no... you couldn’t... Please just close that menu... please?

Oh, so it’s THAT kind of intimacy… Is this why you like this game so much!? So you can have your avatar fuck all the hot elf babes!? Well if you like that so much, then let’s do it! Roofus looks ready to go…
Oh my god, no! Please! Anything but that! Just… just name it, I’ll do anything. Just please don’t…

No! Please don’t! Oh god...
Let’s just take control of your pose... And since you’re already on your knees...

No! God it’s so big...
And let’s just move you closer...
This is fun messing with him, but I don’t think I’ll go all the way. That is kind of fucked up... But I can tease him some more...

Come on, don't do this, this is messed up! This is way too far for a joke!
Aw look at that... You're presenting! Looks like you want to mate with Roofus!

Nono, please! Stop this and let me out of here! I swear I've never even done this in this game, I just like the action parts! Please!
And let's just move you closer... Can you feel his warmth on you? It really does look like he is ready to go
Alright, that's enough, how do you cancel...? Oops...

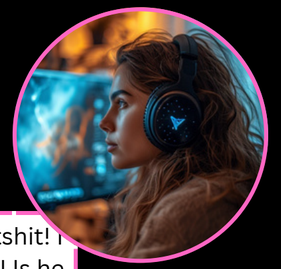

AHH, FUCK! No... Ah... Oh shit!

Whoa [pant] that actually... Feels good...?

Fuck... fuck... FUCK... AHHHH, OH MY GOD!

[Panting] Oh man... I... I gotta try that... again...

CENSORED

Oh shit! Oh Shit! Shitshitshitshit! I didn't mean to actually do it! Is he actually getting fucked right now! Nononono, this is crazy! He'll never forgive me for this!

Wait... is he... getting into it? Those sound like pleasure moans!

What the fuck! He LIKED IT! Maybe... maybe I should have him put ME in the game next time...

...Holy shit... I never knew... how intense that was... for a woman... also... this game... is VERY realistic...
I can't let him know I didn't do that on purpose... Play it off like you meant to!
Okay, um... I think you've learned your lesson... Starting now maybe you'll spend more time with me! Now how the hell do I get you out of the game...? There has to be a way to undo it...
