

Filling Her Up

So how was it, being my panties all day? I was wearing a skirt, so at least it didn't get too hot down there. There's some good air flow at least!

It still was pretty hot, but that's okay, it was damn sexy wrapped around your hips and snatch! Though you could have wiped better after going to the bathroom...

Oh that moisture wasn't from me not wiping... It was so sexy wearing you that I got a little... excited! Just talking to my coworkers like nothing was going on, while my husband was caressing my sweet little pussy... better than any foreplay!

Oh, hehe, well I'm glad you liked it. We'll have to try it again sometime. But can you stop stretching me? It kind of hurts...

Do this again? You make it sound like it's over already! But no we're just getting started! And don't worry, I won't stretch you anymore. In fact, what I have in mind for you will do just the opposite...

Oh, we're not done? It's been hot, but I'm kind of wet and it feels kind of... gross. I would like to be human again now, babe. You said I made you horny, I can help with that!

Oh yes you can! Just not in the way you think. I want you inside me, NOW. And I don't plan to wait until you're human again...

Wait what...? Oh shit, you're pushing me INTO you!? This is so weird, but also kind of hot...

You're damn right it's hot, I can feel myself getting wet just thinking about it. You're so cute just poking out of me like that, your whole body inside my pussy like nothing more than a little sex toy...

No I mean it's HOT! I'm burning up, it feels like I'm being sat on by a sumo wrestler in a sauna! Can you take me out please?

Mmmmm... no way baby, you're staying right there. All day, this was all I could think of. The thought of your little panty body pressed inside of my sex was just so fucking hot that I almost rubbed one out in my office. There is no way that I am passing up this chance...

Oh fuck, it's so hot... and I can feel myself getting wetter, I'm soaked through, this is not what I signed up for!

I was about to offer to make it worth your while if you agree to this, but you don't actually have a choice, so I'll make this threat instead: Shut up and let me enjoy this, or I'll turn you into a tampon and leave you in the woman's bathroom at work.

You wouldn't do that, would you? Okay, okay, I'll be quiet, just don't do anything crazy...

Oh shit, this is the hottest thing ever... You're all the way in there, I can barely see you in the mirror. Where the hell is my vibrator? I'm going to cum on you so many times!

Wait, hang on, it's so tight and hot in here, let me out!
